Gothic Church:	7.941 sec.	-30dB to -5dB	0- 195 msec.	196- 7941 msec.	■	■	■	■	■	■	■
Large Rec Room1 - Orch.:	1.363 sec.	-16dB to -0dB	0- 46 msec.	47- 1363 msec.	■	■					

When your IR-Reverb Plug-IN allows to change Start-Points, Length, or Scaling, please use these features extensively to explore the “beauty“ of these IR-Files.

Don't be shy to change Wet-Levels (see „Wetlevel“ info for each file) until you reach equal gain with the Dry-signal. Natural IR's can be seen as Part of the Source rather than as an „Add-On - Reverb“!

### List of supported Plug-INS:

MAGIX	Samplitude	MAGIX	Sequoia	VOXENGO	Prestine Space
SONIC FOUNDRY	Acoustic Mirror	APPLE	Space Designer	AUDIO EASE	Altiverb 5
WIZOO	Wizoo Verb W2	WAVES	IR-1	TASCAM	Gigapulse
KNUFINKE	SIR				
etc....
